

The MG line mechanical shears with Steel construction frame and reduction gear is designed for perfect cutting quality of sheet metal.

These machines are ideally suited for light gauge metal shearing requirements. The silent running, direct drive system with brake motor and low cost energy-consumption provides efficient operation at an economical price.

Standard Accessories

- NC control.
- Motorized backgauge with 750mm travel.
- 1 pcs. Squaring arm.
- 2 pcs. sheet Support arm.
- Finger Protect.
- Ballscrew.
- Portable foot control with emergency stop button.

The MG line mechanical shears are standard with NC control which provides “multi –step” and “touch and go” programming features for the backgauge

The MG line Mechanical Shears are Standard with 750mm motorized ballscrew back-gauge.
